The EDCs estimate that there will be between 40,000 and 60,000 2024 SRECs available at the Auction. The 2024 SRECS were created in GATS as generation between June 1, 2023 and November 30, 2023.

The Auction Manager will provide to bidders the exact number of 2024 SRECs that will be available at the Auction with their Notification of Qualification.

I.4 Application Website Platform

Each bidder must provide the information required in Section II.1 of the Auction Manual exclusively by using the online qualification form accessible through the SREC Auction website. Beginning with the October 2022 SREC Auction, the online qualification form was made available via a new platform: <https://njsrec-application.com/>. **For a bidder that activated their account to access the online qualification form and provided information in the online qualification form beginning with the October 2022 SREC Auction, the online qualification form will be pre-populated with the last information provided to the Auction Manager.** The Auction Manager will send a reminder of a bidder's login information to those bidders that activated their accounts to access the online qualification form and provided information in the online qualification form beginning with the October 2022 SREC Auction.

A bidder that previously qualified in a prior SREC Auction but did not activate their account to access the online qualification form and provide information in the online qualification form beginning with the October 2022 SREC Auction will not have their online qualification form pre-populated for the December 2023 SREC Auction.
